

## SUPPORTING ENERGY EFFICIENCY

---

State Energy Program projects include:

- Feasibility study by the City of Fargo regarding compressed natural gas fleet conversion.
- Study of public perceptions regarding renewable energy and energy efficiency by the North Dakota Alliance for Renewable Energy.
- “Spotlight on Energy” annual report by Bismarck State College.
- Energy audits by public schools.
- Photovoltaic projects at state parks.
- Energy efficiency curriculum development with mobile “trunks” that include the necessary classroom materials.

## STATE ENERGY PROGRAM

August 2017

The mission of the State Energy Program is to provide leadership to maximize the benefits of energy efficiency and renewable energy through technology deployment, communications and outreach activities, and access to new partnerships and resources.

While any organization may apply, priority is given to schools, political subdivisions, state agencies and non-profits. The amount of funding available varies from year-to-year. Typically, awards range from \$5,000 to \$50,000.

The program year runs from July 1 through June 30.

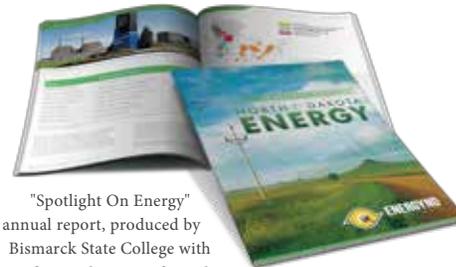

## APPLICATION PROCESS

Applications are accepted at any time. However, in order to guarantee consideration for the upcoming program year, applications or a letter of intent detailing a description of the proposed project and budget must be received by March 1<sup>st</sup>. The application form can be found at [NDCommunityServices.com/SEP](http://NDCommunityServices.com/SEP).

## REIMBURSEMENT

Funds are provided on a reimbursement basis. The reimbursement form is available at [NDCommunityServices.com/SEP](http://NDCommunityServices.com/SEP). Appropriate supporting documentation must be included.

- Invoices must be included for all purchases of services or goods. If a purchase is over \$3,000, three bids must be included. Contractors and vendors must not be debarred or suspended on the System for Award Management.
- If requesting reimbursement for employees, a timecard must be provided that shows the full amount of time of each employee. Hours worked on the grant project also must be designated.

"Spotlight On Energy" annual report, produced by Bismarck State College with financial support from the State Energy Program

## GUIDELINES

- Construction costs are ineligible.
- Indirect costs are not eligible for reimbursement, but may be used for match.
- Subrecipients must maintain a valid DUNS number and CCR registration to be eligible.
- Funds may not be used for product development.
- A 20% match is required. The match may be cash or in-kind.
