The Responsible Entity (RE), named above, has re-evaluated its environmental findings to determine if the original findings are still valid because:

☐ The recipient/applicant has proposed substantial changes in the nature, magnitude or extent of the project, including adding new activities not anticipated in the original scope of the project.

☐ There are new circumstances and environmental conditions which may affect the project or have a bearing on its impact, such as concealed or unexpected conditions discovered during the implementation of the project or activity which is proposed to be continued; or

☐ The recipient/applicant proposed the selection of an alternative not in the original finding.

The RE has determined:

☐ The original findings are still valid but the data or conditions upon which they were based have changed. The RE affirms the original findings, and updates its environmental review by including this evaluation and its determination based on its findings. A Finding of No Significant Impact (FONSI) notice was originally published on the date specified below, and no further publication of a FONSI notice is required.

Published Date

OR:

☐ The original findings are no longer valid; and that its evaluation:

☐ indicates potentially significant impacts for which the responsible entity must prepare an EA or an EIS, or

☐ does not indicate a potentially significant impact and no EA is required.
